

Cooperation on Digital Broadcasting
Convergence with Mobile Communications
between Europe and China

MODIBEC

The MODIBEC project is a 24-month, multi-partner coordination action that intends to promote and support RTD cooperation between EU and China on digital broadcasting technologies, especially the convergence with mobile communications.

It will bring European and Chinese key players in digital broadcasting and mobile convergence areas closer to concrete business opportunities and make recommendations for future actions.

MODIBEC events aim to promote and support RTD cooperation between EU and China on digital broadcasting technologies and mobile communications.
